ETA 9053 Nonmonetary Issue Detection Time Lapse, Affected Week

B. Purpose

The ETA 9053 report contains monthly information on the time it takes States to detect an issue on a claim. The measure is days elapsed from the week ending date of the first affected week to the date on which the agency first detects an issue. Single-claimant and multclaimant nonmonetary determinations are included in the report. Nonmonetary determinations made by organizational units such as Benefits Accuracy Measurement (BAM) and Benefit Payment Control (BPC) are also included in the report. BPC crossmatch determinations, however, are excluded, as are all monetary determinations, regardless of point of origin. A separate section of this report is reserved for multclaimant determinations only.

C. Due Date and Transmittal

The report is due in the ETA National Office on the 20th of the month following the month to which the data relates. This report will be transmitted electronically.

D. General Reporting Instructions

The Nonmonetary Issue Detection Time Lapse measure requires that the State computer read the universe of all nonmonetary determination records. These counts are categorized by Intrastate and Interstate Nonmonetary Determinations and, within those categories, the number that are under the State UI program, Unemployment Compensation for Federal Employees (UCFE), and Unemployment Compensation for Ex-Servicemembers (UCX). These categories are further divided by nonmonetary issue detection time lapse for single-claimant separation and nonseparation issues versus multclaimant issues. These figures will be equal to those reported on the ETA 207 and the ETA 9052, respectively.

- Excludes episodic claims programs such as Extended Benefits, Disaster Unemployment Assistance, and Trade Readjustment Allowances.
- Excludes BPC crossmatch determinations on uncontested earnings.
- Excludes Nonmonetary Redeterminations.

Edit checks can be found in Handbook 402, Unemployment Insurance Required Reports User's Manual, Appendix C.

ETA 9053 Nonmonetary Issue Detection Time Lapse, Affected Week

E. Definitions

Definitions, unless otherwise specified in these instructions, will follow the definitions for the ETA 207 and ETA 9050 found elsewhere in this handbook.

1. Nonmonetary Issue Detection Time Lapse (First Affected Week). The number of days from the week ending date of the first affected week to the date on which the agency first detects an issue.
2. First Week Affected. The first week in a claim series to which a notice of nonmonetary determination applies. For purposes of calculating time lapse for this report, the starting parameter of the measurement is the week ending date of such affected week.
3. Issue Detection Date. See ETA 9052.

F. Item by Item Instructions

Enter in each column and time lapse interval the number of nonmonetary determinations made during the report period representing the number of days from the week ending date of the first affected week to the date on which the agency first detects an issue.

1. All Intrastate Single Claimant Separations.
 - a. Column 1, Total Intrastate Single Claimant Separations. Enter under column 1 the total number of all Intrastate single claimant separation determinations and individual totals for each time lapse interval. Each total reported in this column equals the sum of columns 2, 3, and 4.
 - b. Column 2, UI Intrastate Single Claimant Separations. Enter under column 2 the total number of all State UI Intrastate single claimant separation determinations and individual totals for each time lapse interval. These determinations represent State UI only and State UI in combination with UCFE and/or UCX (joint claims).
 - c. Column 3, UCFE Intrastate Single Claimant Separations. Enter under column 3 the total number of all UCFE Intrastate single claimant separation determinations and individual totals for each time lapse interval. These determinations represent UCFE only and UCFE in combination with UCX (joint claims).
 - d. Column 4, UCX Intrastate Single Claimant Separations. Enter under

UI REPORTS HANDBOOK NO. 401

ETA 9053 Nonmonetary Issue Detection Time Lapse, Affected Week

column 4 the total number of all UCX Intrastate single claimant separation determinations and individual totals for each time lapse interval. These determinations represent UCX only.

2. All Interstate Single Claimant Separations.

- a. Column 1, Total Interstate Single Claimant Separations. Enter under column 1 the total number of all Interstate single claimant separation determinations and individual totals for each time lapse interval. Each total reported in this column equals the sum of columns 2, 3, and 4.
- b. Column 2, UI Interstate Single Claimant Separations. Enter under column 2 the total number of all State UI Interstate single claimant separation determinations and individual totals for each time lapse interval. These determinations represent State UI only and State UI in combination with UCFE and/or UCX (joint claims).
- c. Column 3, UCFE Interstate Single Claimant Separations. Enter under column 3 the total number of all UCFE Interstate single claimant separation determinations and individual totals for each time lapse interval. These determinations represent UCFE only and UCFE in combination with UCX (joint claims).
- d. Column 4, UCX Interstate Single Claimant Separations. Enter under column 4 the total number of all UCX Interstate single claimant separation determinations and individual totals for each time lapse interval. These determinations represent UCX only.

3. All Intrastate Single Claimant Nonseparations.

- a. Column 1, Total Intrastate Single Claimant Nonseparations. Enter under column 1 the total number of all Intrastate single claimant nonseparation determinations and individual totals for each time lapse interval. Each total reported in this column equals the sum of columns 2, 3, and 4.
- b. Column 2, UI Intrastate Single Claimant Nonseparations. Enter under column 2 the total number of all State UI Intrastate single claimant nonseparation determinations and individual totals for each time lapse interval. These determinations represent State UI only and State UI in combination with UCFE and/or UCX (joint claims).
- c. Column 3, UCFE Intrastate Single Claimant Nonseparations. Enter under column 3 the total number of all UCFE Intrastate single claimant nonseparation determinations and individual totals for each time lapse

ETA 9053 Nonmonetary Issue Detection Time Lapse, Affected Week

interval. These determinations represent UCFE only and UCFE in combination with UCX (joint claims).

- d. Column 4, UCX Intrastate Single Claimant Nonseparations. Enter under column 4 the total number of all UCX Intrastate single claimant nonseparation determinations and individual totals for each time lapse interval. These determinations represent UCX only.
4. All Interstate Single Claimant Nonseparations.
- a. Column 1, Total Interstate Single Claimant Nonseparations. Enter under column 1 the total number of all Interstate single claimant nonseparation determinations and individual totals for each time lapse interval. Each total reported in this column equals the sum of columns 2, 3, and 4.
 - b. Column 2, UI Interstate Single Claimant Nonseparations. Enter under column 2 the total number of all State UI Interstate single claimant nonseparation determinations and individual totals for each time lapse interval. These determinations represent State UI only and State UI in combination with UCFE and/or UCX (joint claims).
 - c. Column 3, UCFE Interstate Single Claimant Nonseparations. Enter under column 3 the total number of all UCFE Interstate single claimant nonseparation determinations and individual totals for each time lapse interval. These determinations represent UCFE only and UCFE in combination with UCX (joint claims).
 - d. Column 4, UCX Interstate Single Claimant Nonseparations. Enter under column 4 the total number of all UCX Interstate single claimant nonseparation determinations and individual totals for each time lapse interval. These determinations represent UCX only.
5. All Multiclaimitant Determinations. Report only one multiclaimitant determination based on a set of facts which apply to a group(s) of similarly situated individuals and which is issued to two or more claimants who are members of such group(s).
- a. Column 1, Total Multiclaimitant Determinations. Enter under column 1 the total number of all mutliclaimitant determinations and individual totals for each time lapse interval. Each total reported in this column equals the sum of columns 2 and 3.
 - b. Column 2, Labor Dispute. Enter under column 2 the total number of all multiclaimitant determinations involving labor disputes and individual totals for each time lapse interval.

UI REPORTS HANDBOOK NO. 401

ETA 9053 Nonmonetary Issue Detection Time Lapse, Affected Week

- c. Column 3, Other Multiclient Determinations. Enter under column 3 the total number of all other multiclient determinations not involving labor disputes and individual totals for each time lapse interval.
6. Comments. Explain in the comments area significant variations in time lapse in nonmonetary issue detection from levels in the prior period or the same period one year ago.
 - a. Administrative Factors. Describe administrative factors, such as changes in operating procedures, issuance of rules and regulations, and staff turnover. These may affect data reported in such a way that they cannot be compared with data from prior reports or with current reports from other State agencies.
 - b. Legal Factors. Describe legal factors, such as new laws or policies. These may affect data reported in such a way that they cannot be compared with data from prior reports or on current reports from other State agencies.
 - c. Economic Factors. Describe economic factors which may affect data reported in such a way that conditions will be reflected in any of the tabulations. Cover such factors affecting nonmonetary issue detection time lapse, e.g., mass or prolonged unemployment.
